Journal of Soil and Water Conservation

Index to Volume 42

Adams, J. C. *See* Slay, J. Melinda

Agencies
approach to nonpoint pollution control, 222
cooperation for erosion control, 405
cooperation in reclamation programs, 228
cooperation in the Land and Water 201 program, 76
implementing conservation provisions of Food Security Act, 93
personnel evaluation of Food Security Act of 1985, 285
programs for groundwater quality control, 325
report of Commission on Americans Outdoors, 167
response to shoreline erosion problems along the Great Lakes, 150
role of conservation districts, 70
USAID, and international livestock programs, 382
use of coordinated resource management planning approach by, 161
water policy of, 384, 389

Agriculture
Aldo Leopold's influence on, 144
and conservation policy, 14, 170
dairy termination programs, effects of, 281
development in Africa, 224
drainage improvement in New York, 271
effects of, on groundwater, 243
effects on income of erosion control, 265
equipment and soil erosion, 169
farm income effects on conservation adoption, 435
farmland leasing and conservation practices, 356
irrigation effects on commodity surpluses, 335
land prices and erosion, 232
restructuring of, 316
revitalization in rural America, 321
use of soil amendments for, 57
water policy for, 8

Conservation
adoption, as influenced by farmers' risks, 435
adoption behavior in the Dominican Republic, 367
Aldo Leopold's influence on, 142, 144
and relation to agriculture, 14
cooperation among agencies, 76
credit programs in relation to, 331
districts and the Food Security Act, 70, 93
education programs, 22, 408
farming in Africa, 224
headgerow distribution and removal, 60
in Australia, 394
incentives through tax credits, 41
integration into farmland leasing, 356
international, politics of, 382
legal basis for soil and water, 304
policies and validity of soil loss tolerance values, 155, 170
policy and SWCS, 138, 218, 378
practices and the price of agricultural land, 232
provisions of the Food Security Act, 6, 27, 170, 285
spreading the gospel of, 378
structures effects on fisheries, 370
system for converting woodland to pasture, 198

Conservation Education
See education.

Conservation Tillage
and environmental quality, 28
as affected by residue management, 87
cropping sequences to sustain, 352
economic analysis of, for wheat and sorghum, 120
effects on farm income, 265
effects on nonpoint pollution, 427
for annually cropped wheat, 53
residue estimates using aerial photography, 130
use, perceived versus actual, 431
wildlife benefits of, 50

Environment
and relation to agriculture, 14
Chesapeake Bay clean-up efforts, 72
effects of conservation tillage on, 28
protection of the Niagara Escarpment, 78
reclamation of drastically disturbed lands, 228
shoreline management along the Great Lakes, 150

Erbaugh, J. Mark. *See* Hansen, David O.
Erickson, David. *See* Schaefer, Peter R.

Erosion
control effects on farm income, 265
control in Australia, 394
control in the Tennessee Valley, 76
control in Yemen, 18
control with crossplanting winter wheat, 267
cropping sequences to control, 352
effects of cattle grazing on streambank, 291
effects on agricultural land prices, 232
effects on soil productivity, 183, 205
estimates using cesium-137, 117
estimating costs of reservoir sedimentation, 194
gully control on rangeland, 405
infiltration effects on, 447
in Zimbabwe, 239
on tepetate soils in Mexico, 83
on trails in Alaska, 450
reduced pine growth due to wind, 55
reducing soil loss from forest roads, 46
reduction using straw in steep furrows, 187
reduction using till-plant systems, 107
research plots in Missouri, 91
seasonal variability of erodibility, 211
shoreline, along the Great Lakes, 150
validity of soil loss tolerance values, 155
versus large farm equipment, 169
water treatment costs due to, 349

Ethics
